Subject: Input to River District Master Plan CAC for 5-22-2024 Meeting

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Pam and/or Robert: If possible, please distribute this message to the River District Master Plan Citizen's Advisory Committee for consideration in advance of tonight's meeting. Thank you. - Bob

Dear River District Master Plan Citizen Advisory Committee Members:

I understand that the River District Master Plan CAC is scheduled to expire on July 14, 2024. I would encourage the CAC to request that the City Council extend (or re-establish) the CAC including all of the current CAC members for another 1-year period. Even if the CAC were to complete its work on a recommended River District Master Plan by July 14, 2024, there may be reasons for the CAC to convene and provide additional input to the Council during the environmental review process (which to my knowledge has not yet been initiated) and for the Council's eventual deliberations when considering adoption of a River District Master Plan. From my understanding of the various viewpoints of individuals on the CAC, I do not think a single person or a select subset of the current CAC could sufficiently represent the full CAC during those processes; therefore, I think it's important that full representation of the current CAC be maintained until the Council has made a final decision regarding adoption of a River District Master Plan.

Thank you for considering my input and for the effort and time each of you are dedicating to this planning process.

Bob Delp
