ACCESSIBILITY WORKSHEET FOR EXISTING NONRESIDENTIAL BUILDINGS

Job Address _____ Date _____

Project Name _____ Permit Valuation \$ _____

Application No. _____ CBC Occupancy Group _____

Owner _____ Applicant _____

1. **Cost of Construction:** \$ _____

The **Total Cost of Construction** is the project valuation as verified by the Chief Building Official. New work that requires accessible features shall be included in the project valuation per 2022 California Existing Building Code Section 306.7.1.

2. Cost of any alterations to this building within the previous three years: \$ _____

3. Accumulative Total Cost of Construction (add costs in 1 and 2 above): \$ _____

4. Current Valuation Threshold: \$200,399.00, effective January 2024

5. When the Total Cost of Construction (item 3 above) exceeds the Current Valuation Threshold (item 4 above) complete compliance is required. Provide construction documents for the building and site that show complete compliance.

6. When the Total Cost of Construction (item 3 above) does not exceed the Current Valuation Threshold (item 4 above), removal of architectural barriers shall be preformed in the order required by the 2022 CBC 11B-202 and apply only to the area of specific alteration. Provide construction documents that clearly show the improvements proposed and the features currently in compliance. Include a cost analysis listing the required 20% to be applied; with the itemized cost of the improvements accordingly.

Signature: _____

Suggested Cost Analysis

Fill in **COSTS** column of the table with dollar amounts for those features that require upgrades. Follow the order shown and continue until the total equals or exceeds the amount referenced in item 6 above (20% of valuation). The cost table shall be reviewed and approved by the Building Division.

Amount from item 6 of the worksheet \$ _____

1	PRIMARY ENTRANCE TO REMODELED AREA	COSTS
	Door	
	A. Threshold	
	B. Hardware	
	C. Kick plate	
	D. Strike-side clearance	
	E. Auto Closer	
	F. Landing Placard at building entrance	
	G. Tactile Exit Sign	
	H. Other	
	Subtotal	\$
2	PATH OF TRAVEL	
	A. Ramps/Handrails Landing	
	B. Stairs/Handrails/Landing	
	C. Elevators/Lifts	
	Exit Doors
